

## **IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER**

(The following two sentences are in Spanish relaying information on the importance of this notice. Translated to English, it would read as follows: [This notice contains important information regarding your drinking water, please read the Spanish notice if it is included. If the Spanish notice is not included, please contact the water system and ask for a copy.])

Este informe contiene informacion muy importante sobre su agua potable.  
Traduzcalo o hable con alguien que lo entienda bien.

## **MONITORING REQUIREMENTS NOT MET FOR JUNIPER RIVIERA CWD**

Our water system failed to monitor as required for drinking water standards during the past year and, therefore, was in violation of the regulations. Even though this failure was not an emergency, as our customers, you have a right to know what you should do, what happened, and what we did to correct this situation.

We are required to monitor your drinking water for specific contaminants on a regular basis. Results of regular monitoring are an indicator of whether or not our drinking water meets health standards. During 2023, we did not monitor for Disinfection Byproducts from our distribution system and therefore, cannot be sure of the quality of our drinking water during that time.

### **What should I do?**

- There is nothing you need to do at this time.
- The table below lists the contaminant(s) we did not properly test for during the last year, how many samples we are required to take and how often, how many samples we took, when samples should have been taken, and the date on which follow-up samples were (or will be) taken.

Contaminant	Required Sampling Frequency	Number of Samples Taken	When All Samples Should Have Been Taken	When Samples Were or Will Be Taken
Total Trihalomethanes (TTHM) and Haloacetic Acids (HAAS) - Disinfection Byproducts (DBPs)	Annually during the month of August	TTHM and HAAS samples must be collected at two State Water Board approved sampling sites.	During August 2023	During August 2024 and August annually thereafter.

- If you have health issues concerning the consumption of this water, you may wish to consult your doctor.

### **What happened? What is being done?**

#### **Updated Water Sampling Plan to avoid re-occurrences.**

For more information, please contact **Daniel B. Smith at 760.247.9818 or 25715 Santa Rosa Road, Apple Valley, CA 92308.**

Please share this information with all the other people who drink this water, especially those who may not have received this notice directly (for example, people in apartments, nursing homes, schools, and businesses). You can do this by posting this public notice in a public place or distributing copies by hand or mail.
